

# LED PILOT LIGHT KNOB KIT

"No more second guessing!"

## Purpose

The *LED Pilot Light Knob Kit* provides a visual report on the condition of the solenoid.

## Function

A solenoid valve is an electrically operated device used to control flow. When the solenoid is not energized the pilot lights on the Knob remain off. As soon as the coil is energized the LED's will illuminate.

## Features

- Encapsulated high intensity LED pilot lights
- Threads into the Solenoid-Tube assembly easily
- Easily visible from all angles
- Harsh environment compatible
- Adaptable to standard encapsulated industrial coils
- AC power only
- 115 - 240 V
- 50 - 60 Hz
- O-Ring gasket included
- Independently powered LED's
